Subject: Microsoft Settlement

Dear Sirs,

It is my firm oppinion that DOJ should dismiss the case against Microsoft entierly.

The charge was not just in the first case and was politically motivated.

Microsoft has done more for this country and this economy than any other large corporation in history, with products which makes life easier and are enjoyed all over the world.

Please take the only plausible action and dismiss this case when the ruling takes place this month.

Freedom to invent must endure, especially in this downturn in economy!

Yours Sincerely
Kenth Astrom
Northford, CT
